

APPROVED EXTERNAL WALL PAINT COLOURS

- 1. The approved external wall paint colours are listed in the table below. Any of the listed colours or ranges (except the dark colours) may be used in the designated areas without the need for a sample or further approval.
- 2. If a similar colour, not included in the table is desired or one of the darker colours from the list, a sample area of no less than 1 metre by 1 metre must be painted on the building. Darker colours are more suitable for accent walls. A formal request for approval must then be submitted to the Estate Manager. Written approval must be obtained before any additional painting is carried out.
